Job description

Who We Are

Applied Materials is the global leader in materials science and engineering solutions that are at the foundation of virtually every new semiconductor chip and advanced display in the world. The equipment that we create and service is essential to advancing AI and accelerating the commercialization of next-generation semiconductor chips. Join us and push the boundaries of materials science and engineering in a company at the foundation of the electronics industry. The work we do together advances the world's technology.

What We Offer

Location:

Gloucester,MA

You'll benefit from a supportive work culture that encourages you to learn, develop, and grow your career as you take on challenges and drive innovative solutions for our customers. We empower our team to push the boundaries of what is possible—while learning every day in a supportive leading global company. Visit our Careers website to learn more.

At Applied Materials, we care about the health and wellbeing of our employees. We're committed to providing programs and support that encourage personal and professional growth and care for you at work, at home, or wherever you may go. Learn more about our [benefits](#).

Applied Materials' Display Controls Department is searching for a Co-op to join our team in Spring 2027! The department is responsible for hardware design and improvements for PCBs. The position will entail the following:

- Assist with electronic and system documentation
- Assist in soldering and un-soldering components on PCBs
- Learn schematic capture and fundamentals of PCB design
- Analyze problems along with more Senior Engineers
- Organize and maintain our Electronics lab
- Use test equipment to gather important data
- Design and test various circuits
- **Co-op begins in January 2027, on-site at our Gloucester location**

Requirements

- Currently enrolled in a Bachelor's or Master's degree in Electrical Engineering, Computer Engineering, or a related field.
- Strong academic standing, with a minimum GPA of 3.0 on a 4.0 scale.
- Previous experience in semiconductor processing or manufacturing is preferred.
- Demonstrated eagerness to learn and develop new technical skills.
- Quick learner with the ability to adapt to new technologies and challenges.

Compensation

\$31 - \$41 per hour

Applications will be reviewed on a rolling basis. Note: This position may close early based on application volume or candidate selection

Additional Information

Time Type:

Full time

Employee Type:

Intern / Student

Travel:

Not Specified

Relocation Eligible:

Yes

The salary offered to a selected candidate will be based on multiple factors including location, hire grade, job-related knowledge, skills, experience, and with consideration of internal equity of our current team members. In addition to a comprehensive benefits package, candidates may be eligible for other forms of compensation such as participation in a bonus and a stock award program, as applicable.

For all sales roles, the posted salary range is the Target Total Cash (TTC) range for the role, which is the sum of base salary and target bonus amount at 100% goal achievement.

Applied Materials is an Equal Opportunity Employer. Qualified applicants will receive consideration for employment without regard to race, color, national origin, citizenship, ancestry, religion, creed, sex, sexual orientation, gender identity, age, disability, veteran or military status, or any other basis prohibited by law.

In addition, Applied endeavors to make our [careers site](#) accessible to all users. If you would like to contact us regarding accessibility of our website or need assistance completing the application process, please contact us via e-mail at Accommodations_Program@amat.com, or by calling our HR Direct Help Line at 877-612-7547, option 1, and following the prompts to speak to an HR Advisor. This contact is for accommodation requests only and cannot be used to inquire about the status of applications.
