Job description

Who We Are

Applied Materials is the global leader in materials science and engineering solutions that are at the foundation of virtually every new semiconductor chip and advanced display in the world. The equipment that we create and service is essential to advancing AI and accelerating the commercialization of next-generation semiconductor chips. Join us and push the boundaries of materials science and engineering in a company at the foundation of the electronics industry. The work we do together advances the world's technology.

What We Offer

Location:

Gloucester,MA

You'll benefit from a supportive work culture that encourages you to learn, develop, and grow your career as you take on challenges and drive innovative solutions for our customers. We empower our team to push the boundaries of what is possible—while learning every day in a supportive leading global company. Visit our Careers website to learn more.

At Applied Materials, we care about the health and wellbeing of our employees. We're committed to providing programs and support that encourage personal and professional growth and care for you at work, at home, or wherever you may go. Learn more about our [benefits](#).

Applied Materials' VSE strategic marketing group is searching for a co-op to join our team in 2026! Our group is specially working on patterning and implant applications in new emerging semiconductor fabrication related applications. We have state-of-the-art implant tools which are the backbone of the semiconductor industry. Through novel precise materials engineering we are advancing processes such as doping, and various material properties. The position will entail the following:

- Collaborate with implant material processing groups and process demonstrations, processing wafers, measuring wafers, modelling and simulating processes, analyzing results, and documentation.
- Participate in development projects involving wafer processing, desired metrology and present updates in group meetings.
- Support process engineering through procurement, shipping samples, and tracking inventory functions.
- **Start date: September 2026**
- **Must be available to work 6 - 9 months, onsite at our Gloucester, MA location**

Requirements:

- Currently pursuing a Doctoral degree in Materials Science & Engineering, Chemical Engineering, Chemistry, Physics, Electrical Engineering, Mechanical Engineering or related field in Semiconductors.
- Student must be in good academic standing at their university, with a preferred GPA of 3.0 or above on a 4.0 scale.
- Hands-on expertise on thin film materials characterizations techniques such as ellipsometry, electrical IV/CV measurements, FTIR, microscopy and mechanical properties testing.
- Familiarity with modeling methodologies such as FEM, Monte Carlo simulations, etc. in addition to knowledge of modelling automation techniques is a big plus
- **TCAD highly preferred**

Compensation:

\$41 - \$50 per hour

Applications will be reviewed on a rolling basis. Note: This position may close early based on application volume or candidate selection

Additional Information

Time Type:

Full time

Employee Type:

Intern / Student

Travel:

Yes, 10% of the Time

Relocation Eligible:

Yes

The salary offered to a selected candidate will be based on multiple factors including location, hire grade, job-related knowledge, skills, experience, and with consideration of internal equity of our current team members. In addition to a comprehensive benefits package, candidates may be eligible for other forms of compensation such as participation in a bonus and a stock award program, as applicable.

For all sales roles, the posted salary range is the Target Total Cash (TTC) range for the role, which is the sum of base salary and target bonus amount at 100% goal achievement.

Applied Materials is an Equal Opportunity Employer. Qualified applicants will receive consideration for employment without regard to race, color, national origin, citizenship, ancestry, religion, creed, sex, sexual orientation, gender identity, age, disability, veteran or military status, or any other basis prohibited by law.

In addition, Applied endeavors to make our [careers site](#) accessible to all users. If you would like to contact us regarding accessibility of our website or need assistance completing the application process, please contact us via e-mail at Accommodations_Program@amat.com, or by calling our HR Direct Help Line at 877-612-7547, option 1, and following the prompts to speak to an HR Advisor. This contact is for accommodation requests only and cannot be used to inquire about the status of applications.
