Job description

Job Responsibilities

- Support engineering project planning and execution through data analysis, metrics, and reporting.
- Develop dashboards, reports, and tools that improve visibility into project status, resource utilization, and engineering performance.
- Analyze engineering and project data to identify trends and support effort and resource planning.
- Assist with data collection, validation, and process improvement activities.
- Develop automation solutions and scripts to improve efficiency and reduce manual work.
- Collaborate with engineering, project management, and operations teams to deliver data-driven insights.
- Maintain documentation, analytics models, and project-related processes.

Requirements / Qualifications

- Currently pursuing a Bachelor's or Master's degree in Electrical Engineering, Computer Engineering, Computer Science, Data Science, Industrial Engineering, or a related field.
- Strong analytical and problem-solving skills.
- Experience with data analysis, software development, automation, or engineering projects through coursework, internships, or research.
- Familiarity with Python, SQL, Excel, Power BI, or similar tools is a plus.
- Ability to work effectively in a cross-functional team environment.
- Strong written and verbal communication skills in English.
- Self-motivated and eager to learn new technologies and business processes.

In order to be considered for a summer internship with NXP you must be returning to school or graduating at the conclusion of the internship term. If you are graduating prior to July 2027 please apply to Entry Level full-time roles.

[More information about NXP in the United States...](#)

NXP is an Equal Opportunity/Affirmative Action Employer regardless of age, color, national origin, race, religion, creed, gender, sex, sexual orientation, gender identity and/or expression, marital status, status as a disabled veteran and/or veteran of the Vietnam Era or any other characteristic protected by federal, state or local law. In addition, NXP will provide reasonable accommodations for otherwise qualified disabled individuals.
